

CONCORD[®]
The Right Choice. Right Now.

95G1E

GAS FURNACES

THE FURNACE THAT HAS EVERYTHING
YOU NEED, RIGHT WHEN YOU NEED IT.

CONCORD™ DELIVERS WITHOUT DELAY.

When you're in the market for a new furnace, you don't want to wait. But you do want to make the right decision. Trust Concord to come through every time, with furnaces that are designed well, tested for reliability and ready to go to work.

SOME DECISIONS ARE TOUGH. THIS ONE ISN'T.

When you consider Concord systems, quality and value are givens. You're getting peace of mind with great features and smart designs that squeeze more efficiency out of every energy dollar. And best of all, you get it right now.

The highly effective high-efficiency blower.

The high-efficiency constant torque blower motor found inside the Concord 95G1E does a lot with a little. Not only does it produce more consistent airflow and more even temperatures throughout your home, it also uses up to a third less energy than a conventional blower motor.

Over the years, a hardworking Concord furnace can save you hundreds of dollars on utility bills.

Savings vary depending on use, geography, lifestyle, maintenance, installation and other factors. Chart depicts 5-year savings over less-efficient models.

An immediate solution that's also an efficient solution.

Every Concord furnace is designed to deliver reliable performance and consistently efficient energy use. As one of the standout performers in the Concord lineup, the 95G1E boasts an efficiency of 95% AFUE, meaning a full 95% of fuel is converted into usable heat. So you can spend less on energy all winter long.

THE CONCORD™ 95G1E IS A SMART CHOICE NO MATTER HOW YOU LOOK AT IT.

- 95% AFUE* means 95% of your fuel is turned into usable heat. So you'll save energy all winter long
- A 10-year limited warranty on parts and a limited lifetime warranty on the heat exchanger (with registration)** mean you'll feel good for years to come
- The highly efficient constant torque motor will provide years of reliable operation
- The tough, dependable heat exchanger is made from aluminized steel for long life, and crimped instead of welded for durability and safety
- An anti-vibration blower assembly reduces sound levels on startup and shutdown
- Every 95G1E is factory run-tested to help deliver the highest possible level of reliability

**Like the miles-per-gallon rating on your automobile, the higher the AFUE rating, the lower your fuel costs. All furnaces manufactured today must meet minimum AFUE requirements. If your furnace is 10–15 years old, it probably falls below the current minimum and wastes energy.*

***Applies to residential applications only. For terms, conditions and exclusions, see full warranty at alliedair.com.*

MAKE THE CONCORD DECISION YOU WON'T REGRET.

When you think about everything Concord delivers, your decision is no decision at all. Concord offers the consistency and efficiency you're looking for. The performance and reliability you want are right here, and ready to go to work.

Concord. It's the right choice. Right now.
