

CONCORD[®]
The Right Choice. Right Now.

92G1

GAS FURNACES

THE RIGHT CHOICE,
RIGHT WHEN YOU NEED IT.

**WHEN YOU CHOOSE CONCORD,[™]
YOU'RE CHOOSING TO FEEL GREAT.**

Built rugged and tested for toughness, every Concord furnace works hard to keep you cozy and energy smart. For your peace of mind, every Concord furnace is connected and fired up at the factory before shipping to ensure it performs well from the day it's installed. Concord is a simple choice to make, because it's always the right choice.

SOME DECISIONS ARE TOUGH. THIS ONE ISN'T.

When you consider Concord systems, quality and value are givens. You're getting peace of mind with great features and smart designs that squeeze more efficiency out of every energy dollar. And best of all, you get it right now.

Comfort that doesn't quit.

With its powerful, single-speed PSC blower motor, the 92G1 delivers consistent temperatures and high-efficiency energy usage. So you will stay warm all winter without spending a lot on energy bills. And because the 92G1 is equipped with smaller burners than many other furnaces, it will operate more quietly.

Over the years, a hardworking Concord furnace can save you hundreds of dollars on utility bills.

Savings vary depending on use, geography, lifestyle, maintenance, installation and other factors. Chart depicts 5-year savings over less-efficient models.

Efficiency helps you feel good in every way.

The 92G1 isn't only well-built and dependable, it's also energy efficient. Its Annual Fuel Utilization Efficiency (AFUE) of 92% means it converts 92% of the fuel it uses into heat you can feel. That means it can help you spend less on energy even when the weather is at its harshest.

THE CONCORD™ 92G1 IS A SMART CHOICE NO MATTER HOW YOU LOOK AT IT.

- 92% AFUE* means 92% of your fuel is turned into usable heat. So you'll save energy all winter long
- A 10-year limited warranty on parts and a limited lifetime warranty on the heat exchanger (with registration)** mean you'll feel good for years to come
- The rugged PSC motor will provide years of reliable operation
- The tough, dependable heat exchanger is made from aluminized steel for long life, and crimped instead of welded for durability and safety
- An anti-vibration blower assembly reduces sound levels on startup and shutdown

**Like the miles-per-gallon rating on your automobile, the higher the AFUE rating, the lower your fuel costs. All furnaces manufactured today must meet minimum AFUE requirements. If your furnace is 10–15 years old, it probably falls below the current minimum and wastes energy.*

***Applies to residential applications only. For terms, conditions and exclusions, see full warranty at alliedair.com.*

MAKE THE CONCORD DECISION YOU WON'T REGRET.

When you think about everything Concord delivers, your decision is no decision at all. Your family deserves immediate comfort. The performance and reliability you want are right here, and ready to go to work. **Concord. It's the right choice. Right now.**
