* THE INDOOR OUTFITTERS *

Your ideal indoor environment begins here.

Now a simple touch makes your entire home more comfortable.

Finally, true home comfort is no sweat thanks to the revolutionary Coleman® Echelon™ Residential Communicating Control. Unlike traditional thermostats, the control reaches out and "talks" to every smart Coleman® HVAC device in your comfort system to ensure each is working together at maximum efficiency. From your air conditioner, to your furnace, to other system accessories, you'll find the Echelon™ Residential Communicating Control sets a new standard in sophistication and ease-of-use to create the best comfort level for your lifestyle.

Talk to your local Indoor Outfitter[™] to see more ways the Coleman[®] Echelon[™] Residential Communicating Control can make you feel more comfortable.

Get outstanding comfort with advanced features that raise your comfort level.

With the Coleman[®] Echelon[™] Residential Communicating Control, you get the simplicity and elegance of touch screen control. Meanwhile, your system gets the intelligent instructions it needs to make sure each part is contributing to whole home comfort.

An inspired design.

Inspired by the ease-of-use and readability of today's cutting-edge touch screen devices, the stylish Communicating Control gives you a user-friendly, high-definition, multilingual* touch screen tool to keep your home environment comfortable year-round.

Say goodbye to programming hassles.

The Communicating Control provides enhanced control capabilities to satisfy your unique comfort needs and maintain your indoor climate consistently and efficiently.

*Available with English, French or Spanish text options.

Get comfortable. Faster.

The exclusive "Quick Heat and Cool" feature allows you to "speed up" either the heating or cooling mode by temporarily putting your system at the highest capacity. Relax while you're away.

With the Communicating Control, you can easily program multiple custom and vacation schedules for convenience and energy savings.

It's easy to remember.

Keeping your system in tip-top shape has never been easier, thanks to convenient reminders that keep you in the loop on system status and routine maintenance.

Stay in your comfort zone.
